

Amend Subsection 360(c),
Title 14, California Code of Regulations
Re: Deer: Additional Hunts

change would 1) modify the season to ten consecutive weekends by allowing hunting to occur on Saturdays and Sundays only, thereby reducing staffing requirements; 2) restrict the distribution of tags to military personnel; and 3) the method of take/season restrictions for hunting with archery equipment or firearms would be clarified, thus eliminating confusion regarding when each method of take is permitted.

3. Existing regulations for Hunt J-7 provide both a physical description and a cross reference to the zone X-8 area description in subsection 360(b). During the 2002 regulation process, the area description for zone X-8 was modified to provide a clearer boundary description, however the corresponding change was not incorporated into the J-7 area description and an inconsistency exists which may lead to confusion and unnecessarily place hunters at risk of violating hunt area boundaries. The proposed change would modify the Hunt J-7 area description to cross reference the Zone X-8 area description and therefore eliminate any confusion over the hunting boundary.
4. Existing regulations for Hunt J-10 provide for a season on Saturdays, Sundays and the Columbus Day holiday beginning the last Saturday in September and extending for two consecutive weekends. Due to the shift of calendar dates in 2003, the Columbus Day holiday falls outside of the existing two consecutive weekends, creating an inconsistency in the regulation. In addition, as a result of events on September 11, 2001, staffing levels at Fort Hunter Liggett have been reduced, requiring that the season be shortened. The proposed change would reduce the season to two consecutive weekends, specifically include the Columbus Day holiday, and move the season beginning to the first Saturday in October, thereby reducing staff requirements by aligning seasons for Hunt J-10 and Hunt G-8 and eliminating future discrepancies due to calendar date shifts.
5. Existing regulations for Hunt G-19 provides an Area Description which includes the Butte Slough Wildlife Area. The proposed modification would remove the Butte Slough Wildlife Area from the Hunt G-19 Area Description in order to reflect recent changes in land use/access agreements between the Department and the Department of Water Resources. This modification is necessary in order to eliminate confusion on the part of hunters and prevent possible trespass violations.
6. Pursuant to Fish and Game Section 459, public meetings were held and letters of resolution in opposition to Hunts J-16, J-17 and J-18, were received from the Amador, Calaveras and Colusa County Boards of Supervisors, thus invoking their veto authority over these either-sex hunts. The proposed change would: 1) modify Hunt J-16 by excluding Colusa County from the area description and renaming the hunt title to the Bucks Mountain-Nevada City Junior Either-Sex Deer Hunt; 2) modify Hunt J-17 by excluding Colusa County

from the area description and renaming the hunt title to the Blue Canyon Junior Either-Sex Deer Hunt; and 3) modify Hunt J-18 by excluding Amador and Calaveras counties from the area description and renaming the hunt title to the Pacific-Grizzly Flat Junior Either-Sex Deer Hunt.

7. Some minor editorial changes are necessary for consistency in spelling, grammar and clarification.
8. Existing regulations provide for the number of hunting tags for the additional hunts. The proposal changes the number of tags for existing hunts to a series of ranges presented in the following table. These ranges are necessary, as the final number of tags cannot be determined until spring herd data are collected in March/April. Because severe winter conditions can have an adverse effect on herd recruitment and overwinter adult survival, final tag quotas may fall below the proposed range.

Pursuant to its May 8, 2003 meeting, the Fish and Game Commission adopted the aforementioned season/area description modifications and the following quotas:

IX. Description of Reasonable Alternatives to Regulatory Action:

(a) Alternatives to Regulation Change:

1. Modify Season for Hunt G-8

There is no reasonable alternative to the proposed action.

2. Modify Season and Special Conditions for Hunt G-10

There is no reasonable alternative to the proposed action.

3. Modify Area Description for Hunt J-7

There is no reasonable alternative to the proposed action.

4. Modify Season for Hunt J-10

There is no reasonable alternative to the proposed action.

5. Modify Hunt G-19 Area Description

There is no reasonable alternative to the proposed action.

6. Modify Area Descriptions and Hunt Titles for Hunts J-16, J-17, J-18

There is no reasonable alternative to the proposed action.

7. Minor Editorial Changes

There is no reasonable alternative to the proposed action.

8. Number of Tags

There is no reasonable alternative to the proposed action.

(b) No Change Alternative:.

1. Modify Season for Hunt G-8

The no change alternative was considered and found inadequate to attain the project objectives. Retaining the current season length and timing would be unresponsive to heightened security conditions and reduced staffing levels currently under implementation at the military base.

2. Modify Season and Special Conditions for Hunt G-10

The no change alternative was considered and found inadequate to attain the project objectives. Retaining the current season would be unresponsive to heightened security conditions and reduced staffing levels currently under implementation at the military base. In addition, lack of clarification of method of take restrictions would lead to continued confusion on the part of hunters.

3. Modify Area Description for Hunt J-7

The no change alternative was considered and found inadequate to attain the project objectives. Retaining the current area description may lead to confusion and unnecessarily place hunters at risk of violating hunt area boundaries.

4. Modify Season for Hunt J-10

The no change alternative was considered and found inadequate to attain the project objectives. Retaining the current season length and timing would be unresponsive to heightened security conditions and reduced staffing levels currently under implementation at the military base. In addition, retaining the existing season description will lead to an inconsistency in the regulation due to the 2003 calendar shift.

5. Modify Hunt G-19 Area Description

The no change alternative was considered and found inadequate to prevent possible hunter confusion and trespass violation. Retaining the current area description does not reflect recent land use changes and access agreements between the Department and the Department of Water Resources.

6. Modify Area Descriptions and Hunt Titles for Hunts J-16, J-17, J-18

Pursuant to Fish and Game Section 459, public meetings were held and letters of resolution in opposition to Hunts J-16, J-17 and J-18, were received from the Amador, Calaveras and Colusa County Boards of Supervisors, thus invoking their veto authority over these either-sex hunts.

7. Minor Editorial Changes

The no change alternative was considered and found inadequate to attain the project objectives, because inconsistencies in spelling, grammar and clarification would exist within the regulations.

8. Number of Tags

The no change alternative was considered and found inadequate to attain the project objectives. Retaining the current number of tags for the hunts listed may not be responsive to changes in the status of the herds. The deer herd management plans specify objective levels for the proportion of bucks in the herds. These ratios are maintained and managed in part by modifying the number of tags. The no change alternative would not allow management of the desired proportion of bucks stated in the approved deer herd management plans.

(c) Consideration of Alternatives:

In view of information currently possessed, no reasonable alternative considered would be more effective in carrying out the purposes for which the regulation is proposed or would be as effective and less burdensome to the affected private persons than the proposed regulation.

Updated Informative Digest/Policy Statement Overview

Existing regulations for Hunt G-8 provide for a season on Saturdays, Sundays and federal holidays beginning the second Saturday in October and continuing for four consecutive weekends. As a result of events on September 11, 2001, staffing levels at Fort Hunter Liggett have been reduced, requiring that the season be shortened. The proposed change would reduce the season to two consecutive weekends, specifically include the Columbus Day holiday, and move the season beginning to the first Saturday in October. This proposal will decrease staffing requirements by reducing the season length and overlapping Hunt G-8 with proposed changes for Hunt J-10.

Existing regulations for Hunt G-10 provide for a 72 day season beginning the first Saturday in October; allow hunting by both military and general public; and include various method of take restrictions during the season. As a result of events on September 11, 2001, staffing levels at Camp Pendleton have been reduced, requiring that the season be curtailed; additional security provisions imposed on the base, require restricting hunting access to military personnel only; and special conditions are unclear and require clarification. The proposed change would 1) modify the season to ten consecutive weekends by allowing hunting to occur on Saturdays and Sundays only, thereby reducing staffing requirements; 2) restrict the distribution of tags to military personnel; and 3) the method of take/season restrictions for hunting with archery equipment or firearms would be clarified, thus eliminating confusion regarding when each method of take is permitted.

Existing regulations for Hunt J-7 provide both a physical description and a cross reference to the zone X-8 area description in subsection 360(b). During the 2002 regulation process, the area description for zone X-8 was modified to provide a clearer boundary description, however the corresponding change was not incorporated into the J-7 area description and an inconsistency exists which may lead to confusion and unnecessarily place hunters at risk of violating hunt area boundaries. The proposed change would modify the Hunt J-7 area description to cross reference the Zone X-8 area description and therefore eliminate any confusion over the hunting boundary.

Existing regulations for Hunt J-10 provide for a season on Saturdays, Sundays and the Columbus Day holiday beginning the last Saturday in September and extending for two consecutive weekends. Due to the shift of calendar dates in 2003, the Columbus Day holiday falls outside of the existing two consecutive weekends, creating an inconsistency in the regulation. In addition, as a result of events on September 11, 2001, staffing levels at Fort Hunter Liggett have been reduced, requiring that the season be shortened. The proposed change would reduce the season to two consecutive weekends, specifically include the Columbus Day holiday, and move the season beginning to the first Saturday in October, thereby reducing staff requirements by aligning seasons for Hunt J-10 and Hunt G-8 and eliminating future discrepancies due to calendar date shifts.

Some minor editorial changes are necessary for consistency in spelling, grammar and clarification.

Existing regulations for Hunt G-19 provides an Area Description which includes the Butte Slough Wildlife Area. The proposed modification would remove the Butte Slough Wildlife Area from the Hunt G-19 Area Description in order to reflect recent changes in land use/access agreements between the Department and the Department of Water Resources. This modification is necessary in order to eliminate confusion on the part of hunters and prevent possible trespass violations.

Pursuant to Fish and Game Code Section 459, public meetings were held and letters of resolution in opposition to Hunts J-16, J-17 and J-18, were received from the Amador, Calaveras and Colusa County Boards of Supervisors, thus invoking their veto authority over these either-sex hunts. The proposed change would: 1) modify Hunt J-16 by excluding Colusa County from the area description and renaming the hunt title to the Bucks Mountain-Nevada City Junior Either-Sex Deer Hunt; 2) modify Hunt J-17 by excluding Colusa County from the area description and renaming the hunt title to the Blue Canyon Junior Either-Sex Deer Hunt; and 3) modify Hunt J-18 by excluding Amador and Calaveras counties from the area description and renaming the hunt title to the Pacific-Grizzly Flat Junior Either-Sex Deer Hunt.

Existing regulations provide for the number of hunting tags for the additional hunts. The proposal changes the number of tags for existing hunts to a series of ranges presented in the following table. These ranges are necessary, as the final number of tags cannot be determined until spring herd data are collected in March/April. Because severe winter conditions can have an adverse effect on herd recruitment and overwinter adult survival, final tag quotas may fall below the proposed range.

The Commission, at its May 8, 2003 meeting, adopted the proposed changes, including the tag allocations for each zone.
